AT&T

2016 – Present

UX Designer

As a UX Designer for AT&T I had the opportunity to contribute to the development of several high priority enterprise applications including **Business Center**, **AT&T Collaborate**, and **FirstNet** (an \$80 billion, 25+ year government contract for First Responders across all of the USA).

Roles:

- ▶ Leverage user research to create wireframes that meet both business requirements and target architecture.
- ▶ Create high fidelity comps and partner with development to ensure quality front-end UI.
- ▶ Design and enhance components that align to a seamless pattern library.

Deliverables:

- ▶ Wireframes
- ▶ Prototypes
- ▶ Information architecture
- ▶ Research analysis
- ▶ Comps
- ▶ e508 Compliance

OnMessage

2014 – 2016

Graphic Designer

Designed an average of 2-6 different projects daily with quick turn deadlines. Clients included **AmerisourceBergen**, a global pharmaceutical corporation on the Forbes top 20 list, **Susan G. Komen** of North Texas, **Transplace**, **Capital Plains Bank**, **Borden Dairy**, and more. Projects used in 16+ countries including ads in USA Today.

Deliverables:

- ▶ Branding
- ▶ Ads
- ▶ T-shirts
- ▶ Animation
- ▶ Branding
- ▶ Websites
- ▶ Mobile Apps
- ▶ Retouching
- ▶ Infographics
- ▶ Environmental

SMH Capital

2013 – 2014

Graphic Designer

Upon promotion from intern to full-time, I took ownership over the design direction in collaboration with the Marketing Director and VP. The highlight was buiding a brand new website start to finish, while meeting strict legal requirements. I created all of the graphic assets as well as leveraging photography I shot in-house.
